

# Degree-Completion Program

With learning support for international students

This degree is designed specifically for adult learners like you who want to complete a bachelor's degree in a timely manner. Studying in a world-class education facility with like-minded peers and a highly qualified faculty, you will immerse yourself in contemporary leadership theory, engage in deep discussion with your peers, and make connections with employers who could become your future business associates.

Learn to develop exceptional skills and be a leader in your organization. Throughout the program, learning coaches,

tutors, and translators will work with you to strengthen your English language ability while you learn about management in a North American context. This degree is very practical and includes workplace experience. By working in a real business environment, you will have an opportunity to put theory into action.

In addition to completing a bachelor's degree, you may also choose to complete a certificate.
