

COVID-19 VISITOR EXPECTATIONS

At TWU our top concern is the health and safety of our students and our community. To ensure a safe campus we ask that all staff, faculty, commuting students, family and other guests abide by these expectations while visiting one of our campuses or spaces.

We continue to follow all guidelines laid out by the BC Provincial Health Officer which can be found [online](#).

BEFORE COMING

Complete Symptom Self-Assessment

We recommend you use <https://bc.thrive.health/> on a daily basis.

Stay Home When Sick

Follow the self-isolation guidelines from the BC Center for Disease Control (BCCDC) [here](#).

Plan your time well

Try to group your on-campus needs together to prevent unnecessary coming and going. Every person on campus increases density and risk of exposure. Please be mindful and strategic in your campus access. **NON-RESIDENT CAMPUS HOURS: 7 A.M-9 P.M.**

Bring a Non-Medical Face Mask

Everyone is advised to wear a mask when not able to physically distance (2m) from others.

WHILE ON CAMPUS

Physically Distance (2m)

Please maintain a distance from others while on campus. This is *the* best preventative measure against COVID-19.

Clean Your Hands Often

To reduce germs, please wash or sanitize your hands on a regular basis.

Observe Capacity Limits and Signage

Please follow posted capacity limits and posted expectations for all shared spaces, including cleaning shared equipment (ie. desks or chairs).

Monitor Yourself for Symptoms

If you develop symptoms while on-campus, please wear your mask and return home immediately to complete a self-assessment via the BC Thrive App and follow recommendations.
