**Tables 5, 6 and 7 are mandatory for Institutions with 40 or more chairs allocated only**

Using the numbers provided in Table 6, round the target numbers to the nearest whole number (no decimals) for Tier 1s. The tool will automatically calculate the corresponding Tier 2 targets. The tool will ensure that the Tier 1 and Tier 2 targets equal the total equity targets in Table 4. Enter '0' if there is no target set for Tier 1s (i.e. cells must not be left blank). If a negative number appears in the table (e.g., -2), revise the number entered in the Tier 1 column (a negative number means that the number entered in the Tier 1 cell is too high). In some cases the two numbers shown for Tier 1 and Tier 2 in Table 6 may add up to a higher number than the total targets per group in Table 4, due to rounding constraints (this is resolved by rounding the numbers in Table 7).
